You may wish to scan the attached book that contains the history of the George Hyman Construction Company, the contractor that is doing the first phase of our new building construction. The performance of this contractor has been rather impressive, particularly in the last construction--the DIA Building. The schedule that they have laid out indicates that they plan to be ahead of schedule in our construction. We would not be disappointed if they were to win the contract for the major phase--the construction of the building.
